PRODUCT GROUP OVERVIEW

OUR BUSINESS IS STRUCTURED IN TWO PARTS: HOSPITAL AND HOMECARE.

Hospital

Our Hospital product group includes products used in invasive ventilation, noninvasive ventilation, nasal high flow therapy, anesthesia, and laparoscopic and open surgery. Not only do these products help healthcare providers improve patient outcomes, they often deliver economic benefits as well, by reducing the need to escalate care and shortening patient stays in hospital.

HALF YEAR REVIEW

A number of factors are converging to move us along our sustainable, profitable growth path.

Geographic expansion, a broad product pipeline, purposeful investment in R&D and infrastructure, growth in our sales teams, and an increasing body of clinical evidence – these are firm foundations for future growth.

We are balancing this focus on the future with our near-term aims. As market conditions continue to stabilise, we have shifted from a supply-at-all costs mentality to our normal behaviours. This has seen us renew our focus on continuous improvement during the half. We acknowledge the efforts of our people and our customers, suppliers and clinical partners throughout this period.

FINANCIAL RESULTS

Total operating revenue was $803.7 million for the six months ended 30 September 2023, 16 per cent above the same period last year, and 16 per cent in constant currency. Net profit after tax was $107.3 million, 12 per cent above the same period last year, or 22 per cent in constant currency.

Hospital product group revenue was $487.5 million, an 11 per cent increase on the first half of last year and 11 per cent in constant currency. We continued to see strong demand for hospital consumables across the product portfolio, and hardware demand was solid.

FOUNDATIONS FOR FUTURE GROWTH

Homecare product group revenue was $314.4 million, representing growth of 26 per cent on the first half of last year, and 25 per cent in constant currency. OSA masks and accessories revenue increased 28 per cent in constant currency as the Evora™ Full continued to experience impressive demand. We are set to build on this momentum with our revolutionary new F&P Solo™ mask.

Gross margin for the half was 60.5 per cent, a 192 basis-point increase from the prior corresponding period in constant currency. Headwinds such as freight rates and manufacturing inefficiencies continue to ease, while inflationary raw material and manufacturing costs remain a factor for our teams to work through. We expect that reverting to our normal focus on operational efficiencies will help us return to our long-term gross margin target of 65 per cent within the next three to four years.

We have a demonstrable history of margin improvements year-on-year. Continuous improvement plays an important role in this, and we have initiated more than 5,000 projects globally over the past year. Many seem small on the surface, but we expect that over time they will represent meaningful gains.

STRATEGIC PROGRESS

We have reached several important milestones over the last six months. With respect to product, we received regulatory clearance from the United States FDA in June for our 950 humidification system. This follows the approval for the Airvo™ 3 earlier in the year – the latter is currently available in the US and the 950 will be available in the new year.
On the Homecare side, we have commenced sales of our F&P Solo™ mask in New Zealand and Australia, with more markets to follow in due course. We believe our AutoFit™ technology represents a significant step forward in mask innovation, allowing patients to set themselves up without assistance and easily finetune the fit with a single touch.

We continue to invest in expanding our global sales team, most notably in anesthesia. Our patent-protected Optiflow Switch™ and Trace™ products offer compelling patient and clinical benefits and we have a clear aspiration to build the anesthesia business into a revenue growth driver.

We were pleased to receive approval from the New Zealand Overseas Investment Office (OIO) in April to move forward with our land purchase in Karaka, Auckland for a second New Zealand campus. We formally opened our third building in Tijuana, Mexico and we are nearing completion of our manufacturing facility in Guangzhou, China as our team secures the necessary regulatory approvals.

Our patent-protected Optiflow Switch™ and Trace™ products offer compelling patient and clinical benefits and we have a clear aspiration to build the anesthesia business into a revenue growth driver.

ENVIRONMENTAL AND SOCIAL RESPONSIBILITY PROGRESS

Similar to our view on continuous improvement, there is no finish line when it comes to our environmental and social responsibility journey. We are making steady progress in areas such as sustainable procurement, modern slavery prevention and carbon reduction. There will be much more detail on these efforts provided at our full-year result, which will also include disclosure on our climate resilience in line with the External Reporting Board's new Aotearoa Climate Standards.

Similar to our view on continuous improvement, there is no finish line when it comes to our environmental and social responsibility journey.

BOARD UPDATE

We welcomed Graham McLean onto the board last month as an independent director. Graham joins us following 16 years as a senior leader at Stryker, where he was most recently president of the company's Asia Pacific operations based in Hong Kong and Singapore. Now residing in Australia, Graham is a director of CleanSpace Holdings and Universal Biosensors, two ASX-listed healthcare companies. We believe his wealth of global medical device experience will be beneficial to your board.

Graham's appointment comes as Donal O'Dwyer prepares to depart the board after 11 years of service at the end of the calendar year. We speak on behalf of the wider board when we thank Donal for his enormous contribution to Fisher & Paykel Healthcare across multiple areas.

DIVIDEND

The Board of Directors has approved an interim dividend of 18.0 cents per share for the six months to 30 September 2023, an increase of 3 per cent from the first half of the prior year. This will be paid on 18 December 2023 with a record date of 6 December 2023. We reactivated our dividend reinvestment plan last year and this remains available to eligible shareholders with a 3 per cent discount applying to this interim dividend.

PROFIT SHARE

We have a history of providing a profit share at our half and full year results to ensure our people share in the success and profitability of F&P. To that end, the board has approved a profit-sharing payment of $4 million for employees who have worked for the company for a qualifying period.

THANK YOU

Our thanks go to the people of Fisher & Paykel Healthcare for your contribution to this first half result. And we remain grateful to our shareholders, customers, suppliers and clinical partners – your backing and belief is vital to what we do.

[1] Constant currency (CC) removes the impact of exchange rate movements. This approach is used to assess the Group's underlying comparative financial performance without any impact from changes in foreign exchange rates. See further details on page 15.

Total profit after tax for the period was $107.3 million, a 12% increase from the same period last year, or 22% in constant currency.

Revenue

Operating revenue was $803.7 million, a 16% increase from the prior comparable period (PCP) or 16% in constant currency. Hospital revenue grew 11% in constant currency. Hospital consumables continued to see strong demand across the product portfolio, and hardware demand was solid. Homecare revenue grew 25% in constant currency with strong growth in masks and accessories of 28%.

Gross margin

Gross margin at 60.5% improved by 192 basis points in constant currency from the same period last year and improved by 72 basis points in constant currency from the second half of last year. Headwinds such as freight rates and manufacturing inefficiencies continue to ease, while inflationary raw material and manufacturing costs remain key areas of focus.

Operating expenses

Operating expenses increased 16% (16% in constant currency) to $333.5 million, reflecting our investment in R&D and sales people during the 2023 financial year. This investment supports our global sales growth and development of our product pipeline.

We continue to plan for R&D spend to grow in line with constant currency revenue growth over the long-term.

Financing expenses

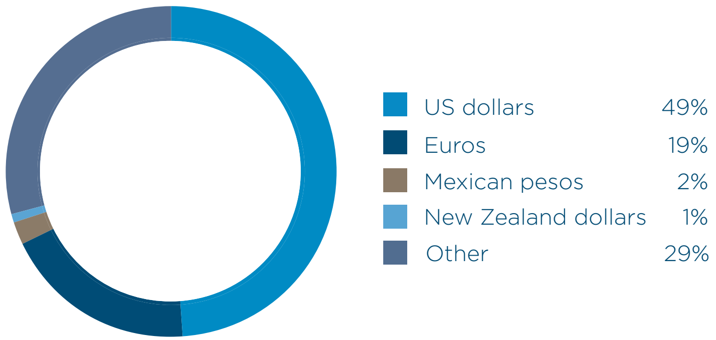
During the period, total borrowings have increased to fund the purchase of the Karaka site, with interest expenses increasing to $8.7 million (Sep 2022: $1.2 million). The net financing expense of $12.0 million remains largely unchanged from the prior period, with lower exchange losses on foreign currency interest-bearing liabilities in the current period of $4.7 million (Sep 2022: $12.7 million) offsetting the increased interest costs.

Tax

Our effective tax rate for the period was 23.7%, up from 16.1% as the non-taxable foreign currency translations were significantly lower than in the prior period. The R&D tax credit this period of $8.8 million (Sep 2022: $7.6 million) represents the estimated eligible R&D expenditure incurred during the period. Excluding the benefit of the R&D tax credit, the effective tax rate was 29.9% (Sep 2022: 22.7%).

FOREIGN CURRENCY IMPACTS

The Group is exposed to movements in foreign exchange rates, with approximately 99% of operating revenue generated in currencies other than NZD as shown below.



Over 60% of COGS and 50% of operating expenses are in currencies other than NZD.

Net profit after tax was unfavourably impacted by $4.8 million compared to the prior period due to foreign currency.

The effect of balance sheet translations for the period resulted in an increase in operating revenue of $3.9 million (Sep 2022: $18.6 million increase) and a decrease in net profit after tax of $1.6 million (Sep 2022: $0.8 million increase). The hedging programme contributed a pre-tax loss of $2.8 million (Sep 2022: $0.5 million gain).

The average daily spot rate and the average conversion exchange rate (the accounting rate, incorporating the benefit of forward exchange contracts in respect of the relevant financial year) of the main foreign currency exposures for the reported periods are set out in the table to the right.

+ Free cash flows include lease liability repayments following the adoption of NZ IFRS 16.

Operating cash flows

Cash flows from operations for the period increased to $156.5 million (Sep 2022: $1.9 million). Operating cash flows were impacted by an increase in net profit before tax, a reduction in net working capital movements and a benefit from prepaid tax during the 2023 financial year, resulting in less tax paid during the period.

Capital expenditure

During the period, $275.5 million was spent on capital expenditure (excluding leased assets), including $189.5 million relating to the purchase of 105 hectares of land in Karaka for a second New Zealand campus. Spending also included progressing our East Tāmaki campus development including earthworks for our fifth building. We continue to invest in production tooling and equipment additions.

Dividends

Dividends paid of $81.7 million were 37% lower than the prior period due to the reintroduction of the Dividend Reinvestment Plan (DRP) commencing with the interim dividend for the 2023 financial year, paid in December 2022. Under the DRP, $51.6 million of dividends were reinvested as new shares this period related to the 2023 final dividend declared, reducing the cash paid by the same amount.

+ Trade and other payables exclude all non-current payables and all employee entitlements and provisions

++ Property, plant and equipment includes lease assets recognised.

Trade receivables have increased to 30 September 2023 reflecting revenue growth. Our debtor days were within the normal range at 41 days (Mar 2023: 40 days). Inventories balances have decreased with continuing focus on balancing demand fluctuations approaching the northern hemisphere winter with manufacturing throughput. Inventories have decreased by $38.3 million since September 2022. Trade and other payables reduction includes timing associated with key capital infrastructure projects and payment of suppliers.

Property, plant and equipment (excluding leased assets) increased by $255.0 million in the period. Additions of $282.0 million, including the Karaka land acquisition were offset by $32.3 million of depreciation. Intangible assets decreased by $0.1 million, with amortisation tracking slightly above total expenditure. Included in intangible assets is ERP system capital spending with our global SAP rollout continuing over the next one to two years.

Other net assets/liabilities movements included a reduction in derivative financial instruments from net assets of $77.1 million at 31 March 2023 to $33.1 million at 30 September 2023. This is primarily due to the change in exchange rates at 30 September 2023 compared to 31 March 2023, with the corresponding offset in the cash flow hedge reserve. All currency derivatives continued to be effective hedges. Non-current other receivables decreased due to the deposit for the second New Zealand campus being reclassified to property, plant and equipment on receipt of Overseas Investment Office (OIO) approval this period.

+ Excluding lease liabilities

During the period, the Group borrowed $210.0 million from available facilities primarily to fund the payment of $189.5 million for the purchase of the land in Karaka.

As at 30 September 2023, the average maturity of loans and borrowings of $237.3 million was 2.7 years. The currency split for loans and borrowings was 70% NZD; 28% USD; 1% Australian dollars; and 1% Canadian dollars. Within the next 12 months, one facility for $60.0 million will expire and upon expiry will not be renewed.

Cash and cash equivalents were $70.5 million at 30 September 2023. This balance, as well as operating cash generated in the second half of the 2024 financial year and additional borrowings, will fund the payment of the interim dividend, and ongoing capital expenditure including building projects in East Tāmaki.

Gearing[1]

At 30 September 2023 the Group had gearing of 9.1%. Gearing was outside the target range due to funding for the Karaka land acquisition.

[1] Net interest-bearing debt (debt less cash and cash equivalents and short-term investments) to net interest-bearing debt and equity (less hedging reserves). Net interest-bearing debt excludes lease liabilities.

NOTES – CONSTANT CURRENCY

Constant currency analysis is non–Generally Accepted Accounting Practice (GAAP) financial information, that is not prepared in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS). Constant currency information has been provided to assist users of financial information to better understand and assess the Group's financial performance without the impacts of foreign currency fluctuations, including hedging results.

Constant currency financial information is prepared each month to enable the Board and management to monitor and assess the Group's underlying comparative financial performance without any distortion from changes in foreign exchange rates. Constant currency information is prepared on a consistent basis for reported periods restated into NZD based on "constant" exchange rates, typically the budgeted exchange rates for the current year. This information excludes the impact of movements in foreign exchange rates, hedging results and balance sheet translations.

The Group's constant currency framework can be found on the company's website at www.fphcare.com/ccf. PwC performs assurance procedures over the constant currency information.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2023

1. GENERAL INFORMATION

Reporting entity

Fisher & Paykel Healthcare Corporation Limited (the "Company" or "Parent") together with its subsidiaries (the "Group") is a leading designer, manufacturer and marketer of medical device products and systems for use in both hospital and homecare settings. Products are sold in over 120 countries worldwide. The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 15 Maurice Paykel Place, East Tāmaki, Auckland. These consolidated financial statements were approved for issue by the Board of Directors on 28 November 2023.

Statement of compliance

The Company is registered under the Companies Act 1993 and is an FMC reporting entity under Part 7 of the Financial Markets Conduct Act 2013. The Company is also listed on the New Zealand Stock Exchange (NZX) and the Australian Securities Exchange (ASX).

Basis of preparation

These consolidated financial statements for the six months ended 30 September 2023 have been prepared in accordance with New Zealand Generally Accepted Accounting Practice (NZ GAAP). They comply with New Zealand Equivalent to International Accounting Standard 34: Interim Financial Reporting (NZ IAS 34) and International Accounting Standard 34: Interim Financial Reporting (IAS 34). The Company and Group are designated as profit-oriented entities for financial reporting purposes.

These consolidated financial statements do not include all of the notes normally included in an annual financial report. Accordingly, this report should be read in conjunction with the audited consolidated financial statements for the year ended 31 March 2023.

Presentation currency

These consolidated financial statements are presented in New Zealand dollars (NZD) to the nearest hundred thousand dollars unless otherwise stated.

Accounting policies

All accounting policies have been applied on a basis consistent with those used and described in the audited consolidated financial statements for the year ended 31 March 2023.

2. SIGNIFICANT TRANSACTIONS AND EVENTS

The following significant transactions and events affected the financial performance and financial position of the Group for the six months ended 30 September 2023:

Property, plant and equipment

In September 2022, the Group announced that one of its members, Fisher & Paykel Healthcare Properties Limited (FPH Properties), had entered into an agreement to purchase 105 hectares of land for a second New Zealand campus in Karaka for $275.0 million.

In April 2023, OIO consent was received with standard conditions and special conditions which require FPH Properties to obtain necessary planning consents, undertake initial development of the site and invest in capital expenditure in line with the Group strategy. $217.0 million has been paid to date for approximately 80 hectares of land. A further $43.0 million is to be paid in January 2026 and the final payment of $15.0 million is due in December 2026 for the acquisition of the remaining parcels of land in Karaka.

During the period, construction work progressed on the car park building on our East Tāmaki, New Zealand campus and earthworks continue for the construction of a fifth building on our East Tāmaki site. Capital commitments at 30 September 2023 include $41.5 million related to these projects. To date, spending on these projects totals $72.4 million.

Borrowing facilities

During the period, the Group borrowed $210.0 million from available facilities primarily to fund the payment of $189.5 million for the purchase of land parcels in Karaka. Subsequently $55.0 million has been repaid. The Company had total available committed external financing facilities of $707.0 million as at 30 September 2023, of which approximately $469.3 million was undrawn. As at 30 September 2023, the weighted average maturity of committed borrowing facilities was 2.9 years.

Share capital

During the period, the Group issued 471,793 shares on exercise of employee share options and performance share rights.

A total of 2,184,251 new shares were issued in relation to the Dividend Reinvestment Plan during the period at an average price of $23.5961 per share, totalling $51.6 million.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the shareholders of Fisher & Paykel Healthcare Corporation Limited

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

OUR CONCLUSION

We have reviewed the consolidated financial statements of Fisher & Paykel Healthcare Corporation Limited (the Company) and its subsidiaries (the Group), which comprise the consolidated balance sheet as at 30 September 2023, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six months period ended on that date, and notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements of the Group do not present fairly, in all material respects, the financial position of the Group as at 30 September 2023, and its financial performance and cash flows for the six months period then ended on that date, in accordance with International Accounting Standard 34 *Interim Financial Reporting* (IAS 34) and New Zealand Equivalent to International Accounting Standard 34 *Interim Financial Reporting* (NZ IAS 34).

BASIS FOR CONCLUSION

We conducted our review in accordance with the New Zealand Standard on Review Engagements 2410 (Revised) *Review of Financial Statements Performed by the Independent Auditor of the Entity* (NZ SRE 2410 (Revised)). Our responsibilities are further described in the *Auditor's responsibilities for the review of the consolidated financial statements* section of our report.

We are independent of the Group in accordance with the relevant ethical requirements in New Zealand relating to the audit of the annual financial statements, and we have fulfilled our other ethical responsibilities in accordance with these ethical requirements. In addition to our role as auditor, our firm carries out other services for the Group in the areas of providing market survey data for executive remuneration, regulatory tax compliance procedures in Mexico, and other assurance services in relation to constant currency disclosures. The provision of these other services has not impaired our independence.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors of the Company are responsible on behalf of the Company for the preparation and fair presentation of these consolidated financial statements in accordance with IAS 34 and NZ IAS 34 and for such internal control as the Directors determine is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITIES FOR THE REVIEW OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our responsibility is to express a conclusion on the consolidated financial statements based on our review. NZ SRE 2410 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the consolidated financial statements, taken as a whole, are not prepared in all material respects, in accordance with IAS 34 and NZ IAS 34.

A review of consolidated financial statements in accordance with NZ SRE 2410 (Revised) is a limited assurance engagement. We perform procedures, primarily consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing and International Standards on Auditing (New Zealand) and consequently does not enable us to obtain assurance that we might identify in an audit. Accordingly, we do not express an audit opinion on these consolidated financial statements.

WHO WE REPORT TO

This report is made solely to the Company's Shareholders, as a body. Our review work has been undertaken so that we might state those matters which we are required to state to them in our review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Shareholders, as a body, for our review procedures, for this report, or for the conclusion we have formed.

The engagement partner on the review resulting in this independent auditor's review report is Indumin Senaratne (Indy Sena).
