Care by design

---

For six months ended  
30 September 2016

## Patient Needs

Our team is dedicated to improving care and outcomes through inspired and world-leading healthcare solutions. Our focus on care drives the way we work, how we approach our design processes and how we support our customers. With more than 10 million people treated with our devices each year, we understand the importance of putting the patients' needs first and striving to deliver our best, every time.

# Innovation

Our investment in research and development, 10% of revenue this half year, has built a competitive advantage driving the development of some of the world's most innovative medical systems. Supported by clinical research and protected by patents, our therapies are changing clinical practice.

## Design Development

Our business is about people. Helping patients, supporting clinicians, and contributing to the communities in which we work. From design to development, manufacture, marketing and supply, our business touches people in over 120 countries. We design the same level of care into our relationships as we do our products, and we support clinicians and homecare providers every step of the way.

# Unbeatable Care

Ours is a long-term story. For forty five years we've designed innovative and world-leading medical products, steadily and consistently building relationships and transforming medical care. We have an exciting product range, an exceptional team and a clear vision guiding us to a future of continued advances in respiratory, surgical and sleep apnea care.

It is care by engineering, care by discipline, care by understanding: it is care by design.

「Care by Design™

# Dedicated to delivering results.

## INVASIVE VENTILATION

Our products for invasive ventilation provide warm, humidified air to intubated patients. This is essential for maintaining the natural balance of heat and moisture in the airways.

## OPTIFLOW™

Our Optiflow system is used to deliver nasal high flow therapy. Its considerable benefits, as discussed in clinical research, now mean that this therapy can often displace conventional oxygen therapy.

## NON-INVASIVE VENTILATION

For non-invasively ventilated patients, a heated and humidified gas flow can improve patient comfort and compliance, reduce airway drying and improve secretion clearance.

## SURGICAL

Our HumiGard™ system delivers warm, humidified CO<sub>2</sub> during open and laparoscopic surgery to support patient outcomes and reduce the risk of postoperative complications.

### CPAP THERAPY

Our continuous positive airway pressure (CPAP) devices and masks support patients suffering from obstructive sleep apnea. Our masks are designed for comfort, seal and easy use.

### HOME RESPIRATORY SUPPORT

Our range of products are used for delivering Optiflow nasal high flow therapy and ventilation in the home for patients in need of respiratory support.

**TONY CARTER**  
Chairman

# Half year review

## Putting care into everything we do.

Welcome to Fisher & Paykel Healthcare's interim report for the first half of the 2017 financial year.

We are pleased to again report a record result, with net profit after tax up 26% for the half to NZ\$78.2 million. Operating revenue for the half of NZ\$425.2 million, was 12% above the first half last year, or 16% growth in constant currency.

### Product innovation

Our company is a global leader in medical devices and systems for use in respiratory care, acute care, surgery and the treatment of obstructive sleep apnea. Our devices are used to improve patient care and outcomes for millions of people around the world. This financial year, we estimate that our products will be used in the treatment of more than 11 million people.

The 2017 financial year has started with three exciting new additions to our product range: the F&P 950 heated humidification system, the F&P Brevida OSA mask and the F&P Nivairo non-invasive ventilation mask. These products have undergone extensive clinical and usability trials and the early response from customers has been extremely encouraging. We expect the F&P 950 and Nivairo to reinforce our market leading position in respiratory care, and the Brevida to provide an attractive complement to our other popular OSA masks, the Simplus™ and Eson™ 2.

**This is just the beginning  
of a very productive time  
for new product releases.**

These new products are now available in New Zealand and Australia, and will be launched in other countries once local regulatory clearances have been obtained. The Brevida, Nivairo and F&P 950 launches are just the beginning of a very productive time for new product releases, which we look forward to sharing with you as they occur. Further information on the three new products released so far this year is included later in this report.

In August, we filed patent infringement proceedings against ResMed, one of our competitors, as we believe that several of their OSA products infringe some of our patented technology. They have also filed patent infringement proceedings against us, which we will vigorously contest. Over the past 20 years, we have built a significant portfolio of more than 1,400 issued and pending patents. We respect the valid intellectual property rights of others and are confident in our infringement and validity positions with respect to our own patents.

**LEWIS GRADON**  
Managing Director and Chief Executive Officer

### Long term growth

Our consistent growth and quality of earnings are reflective of our long term growth strategy and commitment to our investors.

The strong growth we are achieving in both our Hospital and Homecare product groups is due to the increasing adoption of our products by healthcare providers. There are growing numbers of published clinical studies demonstrating how our products can help deliver improved health outcomes for patients and reduce costs to healthcare systems.

To support our growth we will be expanding our infrastructure in both New Zealand and Mexico.

In August, we announced that we had begun the process to purchase a 15 hectare site in Tijuana, Mexico, close to our existing premises. The preliminary purchase agreement has been completed. We expect earthworks to commence later this year with completion of a new facility by 2018, which will provide further manufacturing capacity to accommodate our growth over the next decade.

In New Zealand, we have begun planning for the construction of a fourth building on our existing Auckland site, to accommodate growth in our R&D teams and associated new product pilot manufacturing. The collaboration and seamless integration of the design and manufacturing processes support product development and new product introduction. This facility is expected to be complete by early 2020, and should accommodate the growth in our R&D operations for the following five years.

Our consistent growth and quality of earnings are reflective of our long term growth strategy.

NET PROFIT AFTER TAX

**\$78.2m****↑ 26%**

The development and training of our expanded hospital sales force in the US continues to go well, with major contracts confirmed and market share maintained. We are pleased with progress and look forward to the benefits that we believe the direct sales approach will offer us in the coming years.

**Dividend**

Our Board of Directors has approved a fully imputed interim dividend of 8.25 cents per share for the six months to 30 September 2016, a 23% increase on the interim dividend last year.

**Summary**

During the first half, we continued to implement our strategy of continuous product improvement, broadening our product range, serving more patient groups and increasing our international presence. We are committed to ongoing improvement of care and outcomes for many millions of patients around the world.

We provide healthcare practitioners with innovative medical devices that assist them to provide the best possible care for their patients, and to control costs. Demographics continue to drive growth for healthcare services and support the long term growth outlook for our company.

Our longstanding objective is to double our constant currency operating revenue every five or six years. Our performance this financial year to date is consistent with that objective and the opportunities we see to assist more and more caregivers and their patients continue to give us confidence for the future.

TONY CARTER, CHAIRMAN

LEWIS GRADON, MANAGING DIRECTOR  
AND CHIEF EXECUTIVE OFFICER

# Transforming medical care

## F&P Brevida

**The F&P Brevida is a nasal pillows mask designed for OSA patients.**

It has a unique air pillow seal which inflates in and around the nares to provide comfortable and unobstructed therapy. It incorporates simple, adjustable headgear, a washable diffuser to reduce noise and draft, and VisiBlue™ highlights to assist patients with orientation and assembly. Together, these features are designed for comfort, simplicity of use and to give patients the confidence to adhere to their therapy.

## F&P 950

**The F&P 950 is an advanced heated humidification system for use across the entire respiratory care continuum, delivering support for invasive ventilation, non-invasive ventilation and nasal high flow therapy.**

The system is designed to be easy to set up and use, to minimise unwanted condensate and to provide advanced patient protection. The system includes an interactive touch screen, has minimal assembly connections, integrated measurement of temperature and flows, and Evaqua™ technology to allow humidity to diffuse from the expiratory tube.

## F&P Nivairo

**The Nivairo is a hospital mask used in non-invasive ventilation.**

The mask features a soft, efficient, comfortable seal that conforms to each patient's individual facial shape. It incorporates soft TubeFit™ zones that allow nurses to insert nasogastric feeding tubes when required, without compromising the fit of the seal or creating leaks. The mask also features ErgoFit™ headgear, which is breathable and is designed to maximise comfort for patients.

**The Nivairo features a soft, efficient, comfortable seal that conforms to each patient's individual facial shape.**

# Clinical research

## New trial shows benefits of Optiflow nasal high flow therapy

*The Journal of the American Medical Association (JAMA)* recently published a study led by Associate Professor Hernández M.D, which investigated the use of nasal high flow (NHF) therapy in comparison to non-invasive ventilation (NIV) for patients at high risk of reintubation.<sup>1</sup>

The randomised clinical trial, which used Fisher & Paykel Healthcare's Optiflow nasal cannula, showed that among high-risk adults who had undergone extubation, NHF was not inferior to NIV for preventing reintubation and post-extubation respiratory failure.

This research follows on from an earlier study this year by Associate Professor Hernández and colleagues, also published in JAMA, which found that the use of Optiflow NHF therapy reduced the risk of escalation for extubated patients within 72 hours when compared to conventional oxygen therapy.<sup>2</sup>

Together, these two studies comprise compelling clinical evidence of the benefits of Optiflow NHF therapy.

**The much better comfort and tolerance of NHF compared with NIV, permitting nearly 24 hours of daily use, are significant advantages.<sup>3</sup>**

### PRIMARY OUTCOMES

#### Patients requiring reintubation

- Optiflow NHF therapy: 22.8%
- NIV: 19.1%

#### Post-extubation respiratory failure

- Optiflow NHF therapy: 26.9%
- NIV: 39.8%

### SECONDARY OUTCOMES

#### Median time to reintubation:

- Not significantly different

#### Median length of stay in ICU

- Optiflow NHF therapy: 3 days
- NIV: 4 days

#### Adverse effects requiring withdrawal of the therapy

- Optiflow NHF therapy: 0
- NIV: 42.9%

- 1 Hernández G, et al. Effect of Postextubation High-Flow Nasal Cannula vs Noninvasive Ventilation on Reintubation and Postextubation Respiratory Failure in High-Risk Patients. *JAMA*. 2016 doi:10.1001/jama.2016.14194
- 2 Hernández G, et al. Effect of Postextubation High-Flow Nasal Cannula vs Conventional Oxygen Therapy on Reintubation in Low-Risk Patients. *JAMA*. 2016 doi:10.1001/jama.2016.2711
- 3 Spoletini G, et al. High-Flow Nasal Oxygen or Noninvasive Ventilation for Postextubation Hypoxemia, Flow vs Pressure? *JAMA*. 2016 doi:10.1001/jama.2016.2709

## HumiGard making an impact

A trial was recently published in *Surgical Endoscopy* that assessed the impact of surgical humidification during laparoscopic colorectal surgery on postoperative hypothermia and surgical site infections (SSIs). The researchers also performed a cost-effectiveness analysis. Our F&P HumiGard surgical humidification system was used for the trial.<sup>4</sup>

The study showed that surgical humidification during laparoscopic colorectal surgery is a safe, feasible and cost-effective treatment that improves the quality of surgical care in relation to SSIs and postoperative hypothermia.

This study provides encouraging evidence of the benefits of HumiGard's warm, humidified CO<sub>2</sub> for peritoneal insufflation during elective colorectal surgery with regard to SSIs, postoperative hypothermia and length of stay.

### PRIMARY OUTCOMES

#### Incidence of postoperative hypothermia

- Surgical humidification: 13%
- Without surgical humidification: 57%

### SECONDARY OUTCOMES

#### Incidence of SSIs

- Surgical humidification: 5.7%
- Without surgical humidification: 13%

#### Length of stay

- Surgical humidification: 6.4 days
- Without surgical humidification: 8.3 days – NB: Not statistically significant

#### Average costs incurred

- Surgical humidification: £155 less per patient

# Financial commentary

## CONSTANT CURRENCY ANALYSIS

A constant currency income statement is prepared each month to enable the Board and management to monitor and assess the company's underlying comparative financial performance without any distortion from changes in foreign exchange rates. The table opposite provides estimated NZ dollar income statements for the relevant periods, which have all been restated at the budget foreign exchange rates for the 2017 financial year but after excluding the impact of movements in foreign exchange rates, hedging results and balance sheet translations. This constant currency analysis is non-conforming financial information, as defined by the NZ Financial Markets Authority, and has been provided to assist users of financial information to better understand and assess the company's financial performance without the impacts of spot foreign currency fluctuations and hedging results and has been prepared on a consistent basis each year. The company's constant currency income statement framework can be found on the company's website at [www.fphcare.com/ccis](http://www.fphcare.com/ccis).

Constant Currency Income Statements (Unaudited)	Six months ended 30 Sep 2014 NZ\$000	Six months ended 30 Sep 2015 NZ\$000	Variation 2014 to 2015 %	Six months ended 30 Sep 2016 NZ\$000	Variation 2015 to 2016 %
<b>Operating revenue</b>	<b>334,652</b>	<b>375,599</b>	<b>+12</b>	<b>434,490</b>	<b>+16</b>
Cost of sales	136,036	141,294	+4	150,125	+6
Gross profit	198,616	234,305	+18	284,365	+21
<b>Gross Margin</b>	<b>59.4%</b>	<b>62.4%</b>	<b>+303bps</b>	<b>65.4%</b>	<b>+307bps</b>
Other income	2,500	2,500	-	2,500	-
Selling, general and administrative expenses	97,955	111,716	+14	130,765	+17
Research & development expenses	31,338	35,833	+14	41,574	+16
Total operating expenses	129,293	147,549	+14	172,339	+17
<b>Operating profit</b>	<b>71,823</b>	<b>89,256</b>	<b>+24</b>	<b>114,526</b>	<b>+28</b>
<b>Operating margin</b>	<b>21.5%</b>	<b>23.8%</b>	<b>+230bps</b>	<b>26.4%</b>	<b>+260bps</b>
Financing expenses (net)	3,254	3,091	-5	2,160	-30
<b>Profit before tax</b>	<b>68,569</b>	<b>86,165</b>	<b>+24</b>	<b>112,366</b>	<b>+30</b>

The significant exchange rates used in the constant currency analysis, being the budget exchange rates for the year ending 31 March 2017, are USD 0.68, EUR 0.61, AUD 0.90, GBP 0.475, CAD 0.89, JPY 77 and MXN 11.80.

A reconciliation of the constant currency income statements on the previous page to the actual income statements for year is provided below.

Reconciliation of Constant Currency to Actual Income Statements (Unaudited)	Six months ended 30 September		
	2014 NZ\$000	2015 NZ\$000	2016 NZ\$000
<b>Profit before tax (constant currency)</b>	<b>68,569</b>	<b>86,165</b>	<b>112,366</b>
Spot exchange rate effect	(23,150)	(2,786)	(6,785)
Foreign exchange hedging result	18,046	(7,124)	9,721
Balance sheet revaluation	3,444	8,324	(4,089)
<b>Profit before tax (as reported)</b>	<b>66,909</b>	<b>84,579</b>	<b>111,213</b>

The reconciliation set out above illustrates that, when comparing the NZ dollar profit before tax shown in the actual income statement for the six months to 30 September 2016 with the corresponding period for the prior year:

- the movement in average daily spot exchange rates had an unfavourable impact of NZ\$4.0 million; and
- the company's foreign exchange hedging activities had a favourable impact of NZ\$16.8 million.

Overall, the net favourable effect of movements in exchange rates and the hedging programme was NZ\$0.4 million, including the impact of balance sheet revaluations.

## FOREIGN EXCHANGE EFFECTS

The company is exposed to movements in foreign exchange rates, with approximately 52% of operating revenue generated in US dollars, 20% in Euros, 6% in Australian dollars and 22% in other currencies.

In the current period the proportion of revenue which was generated in US dollars has remained at 52%. In the prior full-year the proportion of revenue generated in US dollars grew. This was mainly due to the increased value of the US dollar compared to the comparable period last year and the impact to revenue from the change in Hospital products distribution in the United States from July 2015. The company's cost base continues to be increasingly diverse, as manufacturing output from Mexico has increased to 32% of total output.

The value of the New Zealand dollar moved higher against most of the currencies in which the company receives revenue. As a result of this appreciation the company's hedges for most currencies were above the respective spot rates, and achieved rates were better than last year. As a result of the appreciation of the NZ dollar, a foreign exchange hedging gain of NZ\$9.7 million (2015: NZ\$7.1 million loss) to operating profit was recorded.

The average daily spot rate and the average effective exchange rate (i.e. the accounting rate, incorporating the benefit of forward exchange contracts entered into by the company in respect of the relevant financial year) of the main foreign currency exposures for the six months ended 30 September 2015 and 2016 are set out in the table below:

	Average Daily Spot Rate		Average Effective Exchange Rate	
	Six months ended 30 September		Six months ended 30 September	
	2015	2016	2015	2016
USD	0.6913	0.7069	0.7356	0.6930
EUR	0.6234	0.6298	0.5824	0.5836

The effect of balance sheet translations of offshore assets and liabilities for the six months ended 30 September 2016 resulted in a decrease in operating revenue of NZ\$5.3 million (2015: increase of NZ\$14.5 million) and a decrease in profit before tax of NZ\$4.1 million (2015: increase of NZ\$8.3 million).

### Foreign Exchange Hedging Position

The hedging position for our main exposures, the US dollar and Euro, as at the date of this report is:

	Six months to 31 March	Year to 31 March			
	2017	2018	2019	2020	2021
USD % cover of expected exposure	90%	55%	23%	20%	17%
USD average rate of cover	0.694	0.670	0.643	0.626	0.614
EUR % cover of expected exposure	92%	68%	11%	0%	0%
EUR average rate of cover	0.595	0.588	0.589	NA	NA

### BALANCE SHEET

Gearing<sup>5</sup> at 30 September 2016 was 7.3%, lower than the 7.7% gearing at 31 March 2016. The decrease in gearing since 31 March 2016 is a result of increased profits held in retained earnings and increased reserves partially offset by an increase in working capital, as a consequence of further business growth. The gearing figure remains above the debt to debt plus equity target range of +5% to -5%.

### Gearing

<sup>5</sup> Net interest-bearing debt (debt less cash and cash equivalents) to net interest-bearing debt and equity (less hedge reserve).

## FUNDING

The company had total available committed debt funding of NZ\$249 million as at 30 September 2016, of which approximately NZ\$200 million was undrawn, and cash on hand of NZ\$18 million. Bank debt facilities provide all available funding. Over the next 12 months debt facilities totalling NZ\$35 million will mature. As at 30 September 2016, the weighted average maturity of borrowing facilities was 2.7 years.

### Debt maturity

The average maturity of the debt of NZ\$44 million was 3.2 years and the currency split was 62% US dollars; 26% Euros; 8% Australian dollars and 4% Canadian dollars (no NZD denominated debt).

### Interest rates

As at 31 March 2015 NZ dollar interest rate swaps with a face value of \$91 million were de-designated as effective hedges due to the low likelihood that there will be an equivalent amount of NZ dollar debt on an ongoing basis. Through to 30 September 2016 \$34.5 million of these de-designated interest rate swaps were either closed out or had expired leaving \$56.5 million outstanding. An amount of \$0.5 million after tax (2016: \$0.8 million) was included in financing expense in relation to these de-designated hedges during the period. Exclusive of ineffective interest rate swaps, approximately 78% of all borrowings were at fixed interest rates with an average duration of 2.5 years and an average rate of 3.0%. Inclusive of floating rate borrowings, the average interest rate on the debt is currently 2.7%. All interest rates are inclusive of margins but not fees.

## Cash flow

Cash flow from operations was NZ\$76.2 million compared with NZ\$35.2 million for the six months ended 30 September 2015. The significant increase was mainly related to an increase in working capital, mainly inventory, recorded in the prior corresponding period. Significant inventory was built last year prior to the implementation of SAP in New Zealand soon after balance date. This inventory was consumed throughout the second half of the prior financial year.

Capital expenditure for the six months was NZ\$30.4 million compared with NZ\$36.2 million in the prior year. The capital expenditure related predominantly to new product tooling and manufacturing equipment. Intangible expenditure related to patent acquisition costs and further implementation costs, NZ\$3.8 million, for the SAP project.

# Financial Statements.

## NOTES TO THE FINANCIAL STATEMENTS

For the six months ended 30 September 2016

### 1. GENERAL INFORMATION

Fisher & Paykel Healthcare Corporation Limited (the "Company" or "Parent") together with its subsidiaries (the "Group") is a leading designer, manufacturer and marketer of medical device products and systems for use in respiratory care, acute care, surgery and in the treatment of obstructive sleep apnea. Products are sold in over 120 countries worldwide.

The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 15 Maurice Paykel Place, East Tamaki, Auckland.

These consolidated interim financial statements were approved by the Board of Directors on 21 November 2016, and are not audited, but were reviewed by PwC in accordance with the New Zealand Standard on Review Engagements 2410.

### 2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These general purpose financial statements for the six months ended 30 September 2016 have been prepared in accordance with New Zealand Generally Accepted Accounting Practice (NZ GAAP). They comply with NZ IAS 34 and IAS 34, *Interim Financial Reporting*. The Group is a for-profit entity for the purposes of complying with NZ GAAP.

#### Statutory base

The Company is registered under the Companies Act 1993 and is an FMC reporting entity under Part 7 of the Financial Markets Conduct Act 2013. The Company is also listed on the New Zealand Stock Exchange (NZX) and the Australian Stock Exchange (ASX).

These consolidated interim financial statements do not include all the notes normally included in an annual financial report. Accordingly, this report should be read in conjunction with the audited financial statements for the year ended 31 March 2016, which have been prepared in accordance with the requirements of Part 7 of the Financial Markets Conduct Act 2013 and NZ GAAP. The financial statements for the year ended 31 March 2016 also comply with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

Except as amended by the early adoption of NZ IFRS 9, all accounting policies have been applied on a basis consistent with those used in the audited financial statements for the year ended 31 March 2016, as described in those annual financial statements.

### Early adoption of NZ IFRS 9: Financial Instruments

NZ IFRS 9 - Financial Instruments was adopted with effect from 1 April 2016. The only significant change on adoption of NZ IFRS 9 is that changes in option time value for options that expire in future periods are recognised in the Cost of Hedging Reserve rather than the Income Statement. The adoption of NZ IFRS 9 has reduced the Income Statement volatility caused by changes in time value of options that expire in future periods, and the standard aligns more closely with the Group's risk management policies and strategy.

To give effect to this change, at 1 April 2016 an amount of \$3,831,000 (\$2,759,000 after tax) has been transferred from Retained Earnings to the Cost of Hedging Reserve. This amount represents the time value portion of option valuations at 31 March 2016 that had previously been credited to the Income Statement. The balance of the Cost of Hedging portion of the Hedge Reserve at 30 September 2016 is \$1,816,000.

The Income Statements for the 6 months ended 30 September 2015 and the year ended 31 March 2016 have not been restated as the impact of doing so is not considered to be significant. If these had been restated the profit after tax for the 6 months ended 30 September 2015 would be increased by \$1,853,000 to \$63,891,000 and the profit after tax for the 12 months ended 31 March 2016 would be decreased by \$2,486,000 to \$140,939,000.

There are no other new standards or amendments to existing standards effective for the financial year ending 31 March 2017 which have or will have a material impact on the Group.

## NOTES TO THE FINANCIAL STATEMENTS

### 3. OPERATING REVENUE

	Unaudited Six Months Ended 30 September 2015 NZ\$000	Audited Year Ended 31 March 2016 NZ\$000	Unaudited Six Months Ended 30 September 2016 NZ\$000
<b>Revenue before hedging:</b>			
North America	182,445	394,327	199,454
Europe	114,011	250,321	118,471
Asia Pacific	72,096	139,591	80,151
Other	19,285	34,253	16,266
<b>Total revenue before hedging</b>	<b>387,837</b>	<b>818,492</b>	<b>414,342</b>
Foreign exchange gain (loss) on hedged sales	(6,869)	(3,004)	10,854
<b>Total operating revenue</b>	<b>380,968</b>	<b>815,488</b>	<b>425,196</b>

The breakdown of revenue before hedging presented above is based on the geographical location of the customer. This presentation is different to that shown in Note 9.

### 4. EXPENSES

	Unaudited Six Months Ended 30 September 2015 NZ\$000	Audited Year Ended 31 March 2016 NZ\$000	Unaudited Six Months Ended 30 September 2016 NZ\$000
Profit before tax includes the following expenses:			
Depreciation	14,399	30,128	15,505
Amortisation	2,470	5,075	4,384
Employee benefits expense	139,751	281,726	154,296
Rental and lease expense	4,183	9,525	4,877

## NOTES TO THE FINANCIAL STATEMENTS

### 5. CAPITAL EXPENDITURE COMMITMENTS

	Unaudited 30 September 2015 NZ\$000	Audited 31 March 2016 NZ\$000	Unaudited 30 September 2016 NZ\$000
Capital expenditure commitments contracted for but not recognised as at the reporting date:			
Within one year	12,053	5,558	15,748
Between one and two years	–	204	–
	<b>12,053</b>	<b>5,762</b>	<b>15,748</b>

### 6. CONTINGENT LIABILITIES

Periodically the Group is party to litigation including product liability and patent claims.

In August 2016, Fisher & Paykel Healthcare filed patent infringement proceedings in the U.S. District Court for the Southern District of California seeking judgment that ResMed's AirSense 10 and AirCurve 10 range of flow generator products, ClimateLineAir heated air tubing, and water chambers for use with such flow generator products, as well as Swift LT and Swift FX masks infringe patents held by Fisher & Paykel Healthcare. ResMed responded that the patents asserted are not infringed and/or are invalid. ResMed also filed a counterclaim in the U.S. District Court for the Southern District of California seeking judgment that Fisher & Paykel Healthcare's Simplus and Eson range of masks used in the treatment of OSA infringe patents held by ResMed. Fisher & Paykel Healthcare responded that it does not infringe and/or the patents of ResMed are invalid.

ResMed has initiated proceedings in the High Court of New Zealand in relation to Fisher & Paykel Healthcare's ICON CPAP device and Simplus and Eson range of masks and in the Regional Court of Munich, Germany in relation to the Simplus and Eson range of masks. Fisher & Paykel Healthcare has filed a counterclaim in the High Court of New Zealand for non-infringement and revocation and has filed proceedings at the European Patent Office to oppose the patents asserted by ResMed in Germany. In October 2016, Fisher & Paykel Healthcare also sought a declaration of non-infringement and invalidity in the High Court of Justice Chancery Division Patents Court in the United Kingdom in respect of patents asserted against Fisher & Paykel Healthcare in Germany.

In November 2016, Fisher & Paykel Healthcare filed patent infringement proceedings against ResMed in Germany in relation to ResMed's AirSense 10 and AirCurve 10 range of flow generator products and Lumis series of noninvasive ventilators.

Both parties are seeking injunctions and damages in relation to the proceedings described above. As at the date of the issue of these financial statements, an estimate of the financial effect cannot be made.

Except as noted above, the Directors are unaware of the existence of any claim or other contingencies that would have a material impact on the operations of the Group.

## NOTES TO THE FINANCIAL STATEMENTS

(i) Foreign currency contractual amounts are equal.

## NOTES TO THE FINANCIAL STATEMENTS

### 7. FINANCIAL INSTRUMENTS (continued)

Foreign currency contractual amounts hedged in relation to sale commitments were as follows:

	Foreign Currency		
	Unaudited 30 September 2015 000s	Audited 31 March 2016 000s	Unaudited 30 September 2016 000s
United States dollars	US\$323,550	US\$302,250	US\$251,450
European Union euros	€91,359	€87,959	€73,500
Australian dollars	A\$6,150	A\$8,150	A\$4,500
British pounds	£19,500	£15,500	£12,350
Canadian dollars	C\$14,400	C\$8,200	C\$6,250
Japanese yen	¥2,625,000	¥2,680,000	¥3,185,000
Chinese yuan	¥56,750	¥44,250	¥27,000
Korean won	₩1,839,678	₩2,110,665	₩3,055,410
Swedish kronor	kr23,750	kr12,500	kr5,000

Foreign currency contractual amounts hedged in relation to purchase commitments were as follows:

	Foreign Currency		
	Unaudited 30 September 2015 000s	Audited 31 March 2016 000s	Unaudited 30 September 2016 000s
Mexican pesos	MEX\$341,500	MEX\$628,500	MEX\$797,000

Contractual amounts of interest rate derivative contracts outstanding were as follows:

	Unaudited 30 September 2015 NZ\$000	Audited 31 March 2016 NZ\$000	Unaudited 30 September 2016 NZ\$000
Interest rate instruments	97,071	89,821	108,583

The interest rate instruments have terms of up to 10 years.

As at 30 September 2016, \$56.5M (2015: \$61.5M) of the total face value of interest rate instruments of \$108.6M were classified as ineffective hedges. The ineffective interest rate instruments will expire through to financial year 2021. Future changes in the mark to market valuation of these interest rate instruments will be expensed or credited to the Income Statement.

## NOTES TO THE FINANCIAL STATEMENTS

### 8. RELATED PARTY TRANSACTIONS

During the period the Group has not entered into any material contracts involving related parties or directors' interests. No amounts owed by related parties have been written off or forgiven during the period. Apart from directors' fees, key executive remuneration and dividends paid by the Group to its directors, there have been no related party transactions.

### 9. SEGMENT INFORMATION

The Group's operating segments consist of New Zealand, North America, Europe and Asia-Pacific. The composition of these segments is unchanged from the 31 March 2016 annual financial statements. Performance is measured based on segment operating profit, as the chief operating decision-maker believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within this industry.

#### Operating Segments - 30 September 2015 (Unaudited)

## NOTES TO THE FINANCIAL STATEMENTS

### 9. SEGMENT INFORMATION (continued)

#### Product Segments

The Group's products and systems are for use in respiratory care, acute care, surgery and the treatment of obstructive sleep apnea and are sold in over 120 countries worldwide. Revenues are managed on a regional basis, but a split by product group is set out below. Assets are not split by product group. Segment revenue is based on product codes and customer types.

#### Product Group Information

	Unaudited Six Months Ended 30 September 2015 NZ\$000	Unaudited Six Months Ended 30 September 2016 NZ\$000
Hospital products	199,625	236,634
Homecare products	175,312	183,237
Core products subtotal	374,937	419,871
Distributed and other products	6,031	5,325
<b>Total revenue</b>	<b>380,968</b>	<b>425,196</b>

### 10. SUBSEQUENT EVENTS

On 21 November 2016 the directors approved the payment of a fully imputed 2017 interim dividend of \$46,756,985 (8.25 cents per share) to be paid on 21 December 2016.

## INDEPENDENT REVIEW REPORT

To the shareholders of Fisher & Paykel Healthcare Corporation Limited

### REPORT ON THE INTERIM FINANCIAL STATEMENTS

We have reviewed the accompanying financial statements of Fisher & Paykel Healthcare Corporation Limited ("the Company"), including its subsidiaries ("The Group") on pages 24 to 39, which comprise the consolidated balance sheet as at 30 September 2016, the consolidated income statement and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the period ended on that date, and a summary of significant accounting policies and selected explanatory notes.

#### Directors' Responsibility for the Financial Statements

The Directors are responsible on behalf of the Group for the preparation and presentation of these financial statements in accordance with *New Zealand Equivalent to International Accounting Standard 34 Interim Financial Reporting* (NZ IAS 34) and for such internal controls as the Directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Our Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements based on our review. We conducted our review in accordance with the New Zealand Standard on Review Engagements 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity* (NZ SRE 2410). NZ SRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects, in accordance with NZ IAS 34. As the auditors of the Group, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

A review of financial statements in accordance with NZ SRE 2410 is a limited assurance engagement. The auditors perform procedures, primarily consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand) and International Standards on Auditing. Accordingly we do not express an audit opinion on these financial statements.

We are independent of the Group. Our firm carries out other services for the Group in the areas of advisory, tax and other assurance services. The provision of these other services has not impaired our independence.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that these financial statements of the Group are not prepared, in all material respects, in accordance with NZ IAS 34.

#### Restriction on Distribution or Use

This report is made solely to the Company's shareholders. Our review work has been undertaken so that we might state to the Company's shareholders those matters which we are required to state to them in our review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders, for our review procedures, for this report, or for the conclusion we have formed.
