## **High-flow Nasal Oxygen: Optimizing Oxygenation in the Endoscopy Suite**

Presented by Douglas Massey II, the webinar will explore high-flow nasal oxygen and

- its mechanisms of action
- the current literature regarding its use in procedural settings, particularly endoscopy
- its clinical application for procedural sedation.

A leading Certified Registered Nurse Anesthetist, Douglas practices at The University of Texas Health San Antonio and University Hospital in San Antonio and is the clinical coordinator for Student Registered Nurse Anesthetists at Baylor College of Medicine. Douglas also serves on the Board of Directors for the Texas Association of Nurse Anesthetists and as Vice President for the Certified Registered Nurse Anesthetists of San Antonio.
