

Evidence in ACTION Webinar

RT Toolbox: Nasal high flow therapy and the management of ARDS

Wednesday, March 27, 2024

MORNING: 9am PT / 11am CT / 12pm ET

AFTERNOON: 1pm PT / 3pm CT / 4pm ET (recorded)

1.0 CRCE CREDIT (RTS), 1.00 CERP (RNS)

Eric Kriner
BS, RRT, FAARC

RTs, get your toolboxes ready to fill with knowledge relating to nasal high flow therapy and the management of ARDS.

Join Eric Kriner, BS, RRT, FAARC, the Pulmonary Critical Care Clinical Specialist at the MedStar Washington Hospital Center and a popular global lecturer on the management of ventilatory ECMO patients and ARDS.

During the event, he will:

- **Review** the pathophysiology of ARDS.
- **Describe** the mechanisms of action for nasal high flow therapy.
- **Discuss** the updated ATS ARDS management guidelines.
- **Describe** how to incorporate nasal high flow therapy into the management of ARDS patients.

Morning session

Afternoon session
