PRODUCT GROUPS

Hospital

We offer medical devices for use in the hospital where patients are receiving invasive and non-invasive ventilation, nasal high flow therapy or undergoing surgery.

Humidity is crucial to respiratory health and wellbeing. Our products incorporate patented and proprietary technologies designed to emulate the balance of temperature and humidity that occurs naturally in the body. This approach restores natural balance and seeks to ensure optimal outcomes for patients and their caregivers.

All figures NZ\$M unless otherwise stated	FY2019	FY2020	FY2021	FY2022	FY2023
Hospital					
Operating revenue	642.3	801.3	1,498.1	1,207.1	1,023.5
Contribution to total	60%	63%	76%	72%	65%

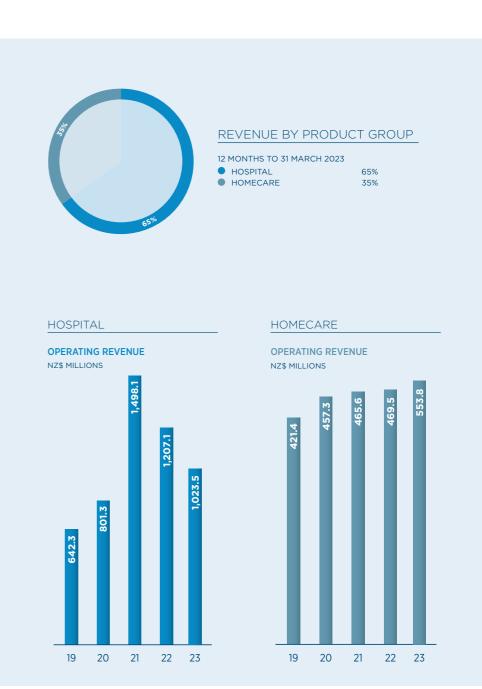

Homecare

Obstructive sleep apnea (OSA) occurs when one's airway temporarily closes during sleep, forcing sufferers to wake either partially or completely to breathe again. This can occur up to several hundred times a night, and if left untreated, can lead to serious health problems.

Our continuous positive airway pressure (CPAP) devices and innovative masks are used to treat OSA. CPAP therapy keeps the airway open, and is recognised as a simple and effective treatment for OSA.

We also offer products that provide respiratory support in the home in the treatment of chronic respiratory conditions such as chronic obstructive pulmonary disease (COPD).

All figures NZ\$M unless otherwise stated	FY2019	FY2020	FY2021	FY2022	FY2023
Homecare					
Operating revenue	421.4	457.3	465.6	469.5	553.8
Contribution to total	39%	36%	24%	28%	35%

MARKETS

We employ multiple distribution channels to reach our customers in more than 120 countries.

Direct: We have direct sales teams in 53 countries which sell directly to hospitals, long-term care facilities and home healthcare dealers.

Distributors: In markets where we do not have our own representatives, we sell to more than 180 distributors worldwide who in turn sell to hospitals, home healthcare dealers and other manufacturers of medical products. Our distributors are supported by representative offices in a number of other countries and area managers based in New Zealand.

Original equipment manufacturers: We sell our devices to manufacturers of medical products and their distributors, who in turn sell to hospitals and home healthcare dealers.

GOVERNANCE

Board

Scott St John - Chair, Non-Executive Independent Director

Lewis Gradon - Managing Director & Chief Executive Officer

Michael Daniell - Non-Executive Director

Pip Greenwood - Non-Executive Independent Director

CAPITAL MANAGEMENT

The company's priority is to appropriately invest in the business to support long-term sustainable growth. The directors have established a target debt to debt plus equity ratio in the range of +5% to -5%. The company expects to increase dividend as earnings grow, while maintaining the target gearing ratio. Dividends carry New Zealand imputation credits to the maximum extent available.

Lisa McIntyre - Non-Executive Director

Graham McLean - Non-Executive Independent Director

Neville Mitchell - Non-Executive Independent Director

Cather Simpson - Non-Executive Independent Director

RESEARCH & DEVELOPMENT

We believe that product development and clinical research is critical to our success, and currently invest approximately 11% of revenue into R&D. As at 31 March 2023 we employed more than 800 people engaged in clinical research and product and process development, primarily engineers, scientists and physiologist.

HISTORY

Fisher & Paykel (F&P) commenced business in 1934 as an importer of refrigerators and washing machines. In 1938 F&P started manufacturing whiteware under license to several major international appliance companies and in the mid-1960s moved to manufacturing products using in-house technology.

The involvement in healthcare started in the late 1960s when F&P sought involvement in a business that could benefit from their growing manufacturing and electronic expertise. A prototype respiratory humidifier, developed in New Zealand for use with patients needing ventilation in hospital intensive care situations, was taken to production by F&P. Since then we have consistently developed innovations to improve patient care and developed worldwide distribution for these products.

On 14 November 2001, as part of a reorganisation, Fisher & Paykel Industries Limited was renamed Fisher & Paykel Healthcare Corporation Limited and a new company, Fisher & Paykel Appliances Holdings Limited, was established to own F&P's appliances and finance business. In connection with the reorganisation, Fisher & Paykel Healthcare Corporation Limited listed on the Australian and New Zealand Stock Exchanges and NASDAQ. In February 2003 the NASDAQ listing was terminated.
