Fisher & Paykel
HEALTHCARE

F&P myMask

F&P myMask makes it easier to find the right F&P mask for your patient. The updated app now offers mask selection and sizing capabilities as well as contact cards alongside its existing education and help.

Now you can easily Select, Size and Assist your patients in person. These proactive tools are designed to help support patient competency and mask compliance.

The Selection and Sizing tools are invitation-only services. To register, or for more information, ask your Fisher & Paykel Healthcare representative.

Select

So many masks to choose from - how do you decide?

Patients answer a simple series of questions. The myMask app then makes mask recommendations based on insights into your patient's lifestyle needs and sleeping style.

Mask selection tool

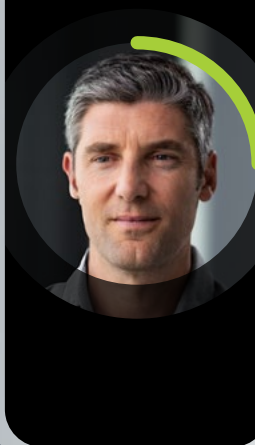

Size

Is sizing a challenge for you or your team?

Scan your patient's face in real-time. F&P myMask accurately sizes Fisher & Paykel Healthcare PAP masks*, in person on the phone. Have peace of mind knowing that only the patient's mask type and size are being shared.†

Scan in progress

Additional sizing analysis at your fingertips.

Share the unique QR code to transfer mask, size and your contact card to your patient.

Assist

Are callbacks a costly, repetitive issue for your organization?

With step-by-step onboarding videos, myMask gives your patients the best chance of success. Patients are shown how to fit, fine-tune and clean their masks effectively. There is also troubleshooting support available for their convenience.

My Solo Nasal Mask

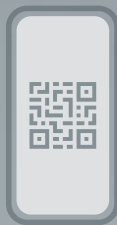

Patient scans the QR code for mask assistance and access to your contact card.

Introducing F&P Services

This user-friendly web portal enables you to access our Selection and Sizing tools.

Your personal contact card
Personalize your contact details for sharing with your patients.

Patient Management
Invite patients to Select and Size their mask in Clinician mode, then share mask education and support at their convenience.

To register for these services, contact your Fisher & Paykel Healthcare representative.

* The F&P myMask App sizing accuracy was tested on 73 participants in 2023. When compared to the use of calipers, the F&P myMask App was found to have a median accuracy of > 91% (Confidence Interval 90 – 95%) across three measures: Face height, nose height and nose width. † We take patient data and privacy seriously and respect anonymity. There is no need for a patient to create an account to use any of the features on the myMask App including gaining access to selection and sizing or for mask help and support. No patient images are transmitted during the myMask selection and sizing process and no image or video is stored on the device after processing. To manage data security, we are ISO 27001 certified internationally and ISO 13485 certified in New Zealand. For a full product set-up description, cautions, hazards and warnings, refer to user instructions provided with the product. Use device as directed. Always follow the instructions for use, e.g., the user instructions. F&P, myMask, F&P Solo and Solo are trademarks of Fisher & Paykel Healthcare Limited.
