

Support when it matters most

Introducing the F&P myMask™ App

The F&P myMask™ is designed to support your mask setup.

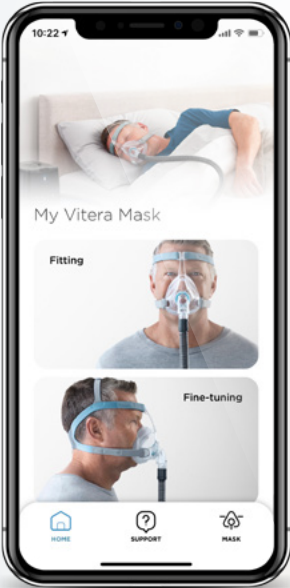

We understand that starting CPAP* therapy can be overwhelming and challenging, which is why we have created a tool that can guide and support you through your mask setup, complementing the care of your healthcare provider.

F&P myMask App offers you:

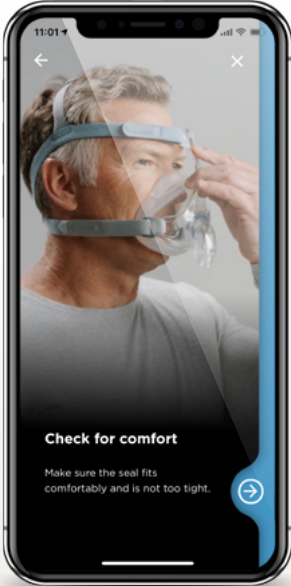

- Step-by-step videos of common tasks such as mask fitting, fine-tuning, cleaning and assembly.
- Easy access to information and support, as and when you need it.

* CPAP or CPAP therapy may also include other positive airway pressure device modes such as APAP or Bilevel. Masks must be used with a PAP device to deliver therapy.
