Redefining Comfort.
Redefining Comfort.

Comfort is unique. Comfort is personal. Comfort is key to successful CPAP therapy. That’s why we believe comfort needs to be measured across a full night’s sleep, not just during the initial consultation.

With technologies that work together to provide stability, adaptability and breathability throughout the night, F&P Vitera is a mask that redefines comfort.

Stable and secure with dynamic stability.

The stability bar and the RollFit™ XT seal provide dynamic stability to keep the seal comfortable and secure during the night.

93% of patients rated the Vitera as equally or more stable than their usual mask.
88% of patients could sleep in their preferred sleep position throughout the night.

Freedom to move with RollFit XT.

- Dynamically adapts as patients move, helping to keep the seal in place throughout the night
- Soft silicone seal rolls back and forth, minimising pressure on the nose
- Designed to fit a wide range of face and nose shapes
- Seal shape designed to minimise leak into the eyes
90% of patients rated the Vitera as equally or more comfortable on the face compared to their usual mask³.

Keep cool and comfortable with VentiCool.

Sweating during sleep is a well-known symptom of patients with OSA.⁴

Vitera headgear features proprietary breathable fabric that allows more air and moisture to escape than the material used in our leading range of full-face masks.*

VentiCool technology helps to keep patients cool and comfortable during sleep.

* Internal testing shows the headgear with VentiCool technology allows 21 times more air-flow and 32% more moisture transfer than the headgear used in our leading full-face masks.
Key features and benefits

RollFit XT Seal
Dynamically adapts to minimise leaks and pressure on the bridge of the nose

VentiCool™ Technology
Breathable headgear designed to allow heat and moisture to dissipate

Ease-of-use Features:
- Adjustable headgear and clips
- Removable forehead clip
- VisiBlue™ colour cues

Stability Bar
Designed to keep the seal in place during the night
Fitting guide

**Step 1.**
Hold the front of the mask with one hand and the headgear with the other. Ensure that one headgear clip is unhooked from the frame.

**Step 2.**
Place the seal onto your face and guide the headgear over your head.

**Step 3.**
Hook the unattached headgear clip onto the frame.

**Step 4.**
Gently tighten the headgear straps of the headgear starting with the bottom straps, followed by loosely fitting the blue forehead straps.

Oceania, Canada, Western Europe, Middle East (U Model)
