EXPLANATORY NOTES

Explanatory Note 1 – Re-election of Directors
Under Listing Rule 3.3.11 of the NZSX Listing Rules, and in accordance with the Company's constitution, one third of the Company's Directors must retire by rotation at the Annual Shareholders' Meeting. If the Directors are eligible, they may offer themselves for re-election by shareholders at the meeting. In this case, Gary Paykel and Lindsay Gillanders retire and, being eligible, offer themselves for re-election by shareholders at the Annual Shareholders' Meeting.

Gary Paykel and Lindsay Gillanders are non-executive Directors and are considered by the Board to be Independent Directors, as that capacity is described in the NZSX Listing Rules. Explanatory Note 3 – Fisher & Paykel Healthcare 2003 Share Option Plan – Issue of Options to the Managing Director and Chief Executive Officer

Introduction
Shareholder approval is required by the ASX Listing Rules and the Company's constitution, and is being sought for, the grant of up to 200,000 options under the Fisher & Paykel Healthcare 2003 Share Option Plan (the Plan) to Michael Daniell, the Managing Director and Chief Executive Officer of the Company. The Plan was established by the Company in 2003 in accordance with the Plan rules dated 7 March 2003 and amended on 12 August 2004, 22 November 2006, 22 April 2010 and 25 May 2010. The Company intends to also issue, pursuant to NZSX Listing Rule 7.3.6, up to 4,800,000 options to selected executives, managers and other employees of the Company and its subsidiaries (or a person associated with them) which will be issued within 5 months of the Annual
Shareholders’ Meeting. The proposed grant of up to 200,000 options to Mr Daniell represents approximately 4% of the total options intended to be granted at that time to participants in the Plan. The Company estimates that following this issue, the total number of options and ordinary shares issued to participants in the Plan both under the issue and during the five year period preceding the date of the issue, excluding any shares issued under the Company’s dividend reinvestment plan, will be approximately 5.3% of the total ordinary shares on issue.

The Board believes that the Plan fulfils an important role in creating an identity of interest between the Company’s senior employees and its shareholders, through incentivising such employees to grow the share price of the Company. The Plan also assists the Company to attract, motivate and retain key employees in an environment where such employees are in high demand both within New Zealand and internationally. Options are issued to employees under the Plan as a long-term component of remuneration provided to employees in accordance with our remuneration policy.

As with previous option plans, the Board will regularly review the operation of the Plan and consider whether it is in the Company’s interest to make further grants of options. It is proposed, subject to obtaining shareholder approval to do so, that a grant of up to 200,000 options be made to Michael Daniell under the Plan using criteria applying generally to all employees and on identical terms and conditions as those options to be issued to other selected employees.

Over the past five years the fair value of options granted to employees under the Plan, determined using the Binomial Options Pricing Model, have been in the range of $0.17 to $0.28 per option. The Board does not expect that the fair value of options to be issued to employees under the Plan in 2011 will be materially different.

The Company’s cost of capital is used as the key performance benchmark in determining the exercise price of the options. The Board believes that the cost of capital
is an appropriate performance benchmark as it rewards employees when the Company has outperformed its cost of equity and shareholders have experienced positive returns, and it achieves close alignment of employee's incentive remuneration to shareholder returns.

**Shareholder approval required**

ASX Listing Rule 10.14 and the Company's constitution require that shareholder approval be obtained where options and other equity securities are to be issued to a Director under an employee incentive scheme. Shareholder approval is not required for the purposes of the NZSX Listing Rules. The NZSX Listing Rules allow executive directors to participate in employee share issues where the participation is determined by criteria applying to employees generally. Mr Daniell's participation has been determined by criteria applying to employees generally.

Shareholder approval is therefore being sought to issue options under the Plan to the Managing Director and Chief Executive Officer of the Company, Michael Daniell. If approved, the options will be issued to Mr Daniell by 19 January 2012 which is within 5 months of the Annual Shareholders' Meeting. The Company intends to issue options to selected executives, managers and other employees of the Company and its subsidiaries on or about the same date.

No Director nor any associate of a Director has received options granted under the Plan (or any predecessor plan) except Mr Daniell. As at 31 March 2011, Mr Daniell held 860,000 options under the Plan. 200,000 options were granted to Mr Daniell under the Plan on 3 September 2010, following the approval of the issue of those options at the 2010 Annual Shareholders' Meeting. Mr Daniell is the only Director eligible to participate in the Plan. There is no loan proposed in relation to the proposed issue of options under the Plan to Michael Daniell.

For the voting exclusions applicable to this resolution, please refer to page 4 of this Notice of Meeting.
Key Terms of the Plan

The key terms of the Plan are:

• No amount is payable for the grant of options.

• One option gives the participant the right to subscribe for one ordinary share in the Company subject to meeting the following vesting conditions:

  (a) One third of the options granted under the Plan to a participant on a particular grant date become exercisable on each of the second, third and fourth anniversaries of the grant date and all unexercised options expire on the fifth anniversary of the grant date.

  (b) Options also become exercisable if a person (or group of persons acting in concert) acquires 50% or more of the ordinary shares of the Company.

  (c) On leaving employment due to serious illness, accident, permanent disablement, redundancy or other circumstances as determined by the Board, the participant will have one month to exercise all outstanding options. In the event of the participant's death, the participant's executor will have three months to exercise all outstanding options. Unless otherwise determined by the Board, on termination of employment for any other reason all outstanding options held by the participant will expire.

• Subject to any applicable Listing Rules, the Board is given a discretion to adjust options to achieve equivalent treatment as between the participants in the Plan and the shareholders in the event of a reconstruction in the share capital of the Company.

• The Company may amend the terms of the Plan, subject to the consent of any adversely affected participant.

• Options are not transferable, other than to certain persons associated with an employee, and do not participate in dividends or other distributions of the Company. Participants are not entitled to
participate in new issues of the underlying securities (such as a rights issue or bonus issue) without exercising the option.

- The Board may determine the exercise price of an option on or around the date the options are granted.

- The Board has agreed that the exercise price for the options granted under the Plan following the Annual Shareholders’ Meeting will be calculated as follows:

  On or around the grant date a “base price” will be determined by the Board. This will be the volume weighted average price for a share on the NZSX for the 5 business days prior to the grant date. The base price will be adjusted to take into account any consolidation or subdivision of shares, bonus issues, capital reconstruction or any other adjustments to the shares or share structure of the Company.

  As at each anniversary of the grant date a new base price will be calculated by:

  (a) increasing the last calculated base price by a percentage amount determined by the Board to represent the Company's cost of capital, after taking into account independent advice (subject always to independent advice at the relevant time, it is currently anticipated that the Company's cost of capital will be between 9% and 11% per annum); and

  (b) reducing the resulting figure by the amount of any net cash dividends paid by the Company in respect of a share in the 12 month period immediately preceding that anniversary.

However, to ensure that the base price does not decrease, if there were circumstances where the base price was less than the last calculated base price, the new base price shall be the last calculated base price.

The exercise price for the one-third of options that become exercisable on the second anniversary of the grant date shall be the base price calculated as at the second anniversary of the grant date.
The exercise price for the one-third of options that become exercisable on the third anniversary of the grant date shall be the base price calculated as at the third anniversary of the grant date.

The exercise price for the one-third of options that become exercisable on the fourth anniversary of the grant date shall be the base price calculated as at the fourth anniversary of the grant date.

In circumstances where, in accordance with the Plan, exercise occurs prior to the date the options normally become exercisable, the exercise price for such options shall be the last base price calculated prior to the date of exercise.

- Options will not be listed on either the NZSX or the ASX markets. So long as the Company remains listed on the NZSX and/or the ASX markets it is intended that the shares issued under the Plan will be listed on the NZSX and/or the ASX markets (as applicable).

- Ordinary shares issued or transferred on the exercise of options shall be fully paid and shall rank equally with all other ordinary shares in the Company except for dividends declared or payable in respect of any period prior to the issue of the relevant shares.

- The Cancellation Offer facility approved by shareholders at the 2004 Annual Shareholders’ Meeting (which allows optionholders to cancel vested options in consideration for shares of a value equal to the gain that the optionholders would receive if they exercised their options) applies to the options granted under the Plan.

- A Prospectus relating to the Plan is available for review at the New Zealand Companies Office (http://www.companies.govt.nz).
