  - Humidification provides significant acceptance and compliance improvements
Revolutionary Masks

- Market leading mask technology
- Unique, patented designs
- Mask Matters Most
  - Masks are key to compliance
Chronic obstructive pulmonary disease (COPD) is a lung disease which is commonly associated with smoking.

Emphysema and chronic bronchitis are both forms of COPD.

Chronic respiratory disease, primarily COPD, is the third leading cause of death in the US.

6% of US adults have been diagnosed with COPD (~15 million people).
